

Partnership gets behind Social Procurement at the Energy Excellence Awards

May 5, 2023

BlueFloat Energy and Elemental Group are proud to be supporting social procurement through our sponsorship of the Energy Excellence Awards. The Social Procurement award is new for 2023 and recognises those businesses or organisations that are intentionally creating positive environmental or social outcomes through the choices they make when buying goods or services.

Our partnership share a commitment to good social procurement and are already putting it into practice as we develop the Waikato and South Taranaki Offshore Wind projects

To find out more about the Energy Excellence Awards please visit their website: <https://www.energyawards.co.nz/>
